

# Case Study

October 2017 - Issue 23

Location	<b>Millbridge Farm</b>
Panel System	<b>Trevi Panel™ Shower Panels</b>
Manufacturer	<b>Cubicle Centre</b>
Website	<b><a href="http://www.washroomcubicles.co.uk">www.washroomcubicles.co.uk</a></b>

**Millbridge Farm Camping and Caravan Park is located on the outskirts of the village of Naburn, just 4 miles from York city centre. The family run farm wanted to offer their visitors better facilities, so they built a new washroom block.**

The building features separate washrooms for the men and women with showers, cubicles and vanity units. The walls were also fitted with Trevi Panel in a concrete pattern. The panels are quick to install, hygienic and require very little maintenance once fitted.

Trevi panel can be fitted over existing walls, around complicated shapes and is waterproof when properly installed. It is a cost effective alternative to bathroom tiles.

The toilet and shower cubicles were constructed from Compact Grade Laminate (CGL). CGL is water-proof and vandal resistant, so perfect for a heavy use environment. The vanity units are also constructed from durable CGL in a matching colour scheme.

Cubicle Centre is a leading manufacturer of washroom panel products in the UK.

An extensive range of toilet cubicles and washroom systems are available on a manufacture and supply basis - all designed to allow for simple installation by any competent tradesperson.
