

# Bench Seating & Lockers

For a complete changing room area, Cubicle Centre can now supply made to measure bench seating and locker systems.

Standard bench seating consists of square section (25mm) steel supports, in a black powder coated finish. These support a robust Compact Grade Laminate (13mm thick) top which is completely water resistant.

Various non-standard types of bench seating can be made to order, such as 'island' systems complete with coat hook supports.

Contact us on (01924) 457600 to discuss your bench seating and locker requirements and to obtain a quote.
