

Material Guide

Compact Grade Laminate (CGL)

High performance, self-supporting Compact Grade Laminate with two decorative surfaces and a black core, offering exceptional resistance to impact and moisture.

CGL is particularly suited for use in washrooms and changing areas where hygiene and ease of maintenance is essential.

CGL is totally water proof and vandal resistant.

Melamine Faced Chipboard (MFC)

Melamine Faced Chipboard incorporates two decorative melamine surfaces bonded to both sides of high density, moisture resistant chipboard under high pressure and temperature.

MFC is a cost effective, hygienic and lightweight solution for all non-wet toilet areas.

All panels have impact resistant, PVC edging applied.
