

REACH is the EU Regulation n° 1907 / 2006 about Registration, Evaluation, Authorization and Restriction of Chemical substances.

REACH was adopted to improve the protection of human health and the environment from the risks that can be posed by chemicals, while enhancing the competitiveness of the EU chemicals industry.

Our products are categorized as “articles” under the REACH Regulations.

Concerning its production, as eco-responsible manufacturer, Polyrey agrees to:

- ensure that the chemical products purchased are registered, evaluated and allowed to use, in particular in terms of pre registration and registration of substances from of the European CHemicals Agency (ECHA).
- ask for and examine the safety data of chemical products purchased
- evaluate and secure the supply chain from of its suppliers
- keep an eye on the published list of chemical products which are evaluated as potentially removed or with limitations in order to anticipate the future impacts.”

Regarding the Substances of Very High Concern (SVHC) candidate list, Polyrey products do not contain more than 0.1% by weight per article of any substance on the SVHC candidate list
