

Vanity units are made to measure and available as either Inset (550mm deep) or Semi-Recessed (350mm deep) options.

Vanity tops are 20mm thick with a High Pressure Laminate (HPL) finish as standard.

Under panels are constructed from high performance MFC as standard or CGL panels with a CGL vanity kit.

The new, unique design removes the need for a timber frame, saving you both time and money.

Overall vanity height is 850mm (standard) - this can be altered to suit your individual requirements.

Inset Vanity Unit

n55Plus

Manufacturer

Cubicle Centre Ltd, Unit 33 Caldervale Business Park,
Ravensthorpe, West Yorkshire, WF13 3JL
Tel: (01924) 457600 Fax: (01924) 437600
Email: sales@washroomcubicles.co.uk

Specification

Overall vanity height: 850mm (Standard) or to customers requirements

Overall vanity depth: 550mm

Vanity top: 20mm thick with a High Pressure Laminate (HPL) finish

Under panels: 18mm Melamine Faced Chipboard (MFC) with 2.0mm PVC edging

NOTE: We can supply either a loose upstand or integral post-formed upstand, both @ extra cost. Integral post-formed upstands will attract extended lead times.
