**Launched in 2011, Healthcare IPS has proved a great addition to the product range at Cubicle Centre.**

Working alongside local building contractors ADH Construction, Cubicle Centre supplied Healthcare IPS panel products for the recent refurbishment of Liversedge Health Centre.

Providing panel systems to meet with NHS guidelines and HTM 68 specification was key to the brief. Healthcare IPS ticked all the boxes

whilst providing a flexibility for the re-use of existing sanitary ware.

Manufactured in the UK, Healthcare IPS panel systems are made to measure and can be pre-assembled to save time on-site and reduce installation costs.
