Elliott Modular Buildings have encountered just about every situation regarding educational accommodation and have thousands of students learning in their re-locatable buildings every year.

The Eco Junior Maxi Toilet Block is the perfect solution to hiring re-locatable toilet blocks for schools and nurseries.

This brightly coloured toilet block includes Eco benefits but has been specially designed with children in mind. The girl's and boy's sections are separated by internal doors via a cloakroom area and are clearly colour defined – bright pink for the girls and blue for the boys!

As Elliott's preferred cubicle supplier, Cubicle Centre manufacture and supply the Brecon Junior Cubicle System for these toilet blocks. Features such as low-height doors and anti-trap hinges and latches make Brecon the perfect choice for Key Stage 1 & 2 - junior school washrooms.

Cubicle Centre is a leading manufacturer of toilet cubicles and washroom systems for the education sector in the UK. Contact us on the details below to find out more.
