

Case Study

September 2012 - Issue 8

Location	Stamford Endowed Schools
Cubicle System	Malvern Plus and Zest
Manufacturer	Cubicle Centre Ltd
Website	www.washroomcubicles.co.uk

A beautifully preserved English stone town, Stamford in Lincolnshire was the location for several school refurbishments.

Cubicle Centre was the chosen washroom manufacturer and the project was carried out by DK Services. This included refurbishment of the Stamford Endowed Junior and High School washrooms.

Malvern Plus cubicles were selected for the Junior School in vibrant colours, Blue for the boys and Yellow for the girls, both with Stone Grey partitions. These were complimented by matching wall panel systems and vanity unit kits.

For the girl's High School, Zest cubicles were a perfect choice due to their increased height of 2100mm along with durable panels and anti-vandal fittings. A row of ten cubicles and six wash basins were presented in Stone Grey and Kiwifruit for a vivid finish.

Cubicle Centre is a leading manufacturer of washroom panel products in the UK. An extensive range of toilet cubicles and washroom systems are available on a manufacture and supply basis - all designed to allow for simple installation by any competent tradesperson.
