We are always looking to ensure the wood used to make our products comes from the most responsible sources available. Certain MFC colours can be supplied as FSC® Certified on request. Simply look out for the FSC 'ticktree' logo in this brochure.

The mark of responsible forestry

Wood sourced from responsibly managed forests

To learn more about the Forest Stewardship Council®, visit www.fsc.org

Some people think a cubicle is just a cubicle,
but we take our business seriously.

The smallest rooms in the building can lead to the biggest frustrations.
At Cubicle Centre we are working hard to make your life as easy as possible.

Why Choose Cubicle Centre

For architects and specifiers

- We provide a full library of 2D CAD and 3D BIM (Building Information Modelling) files for all our products
- Specification sheets provide a detailed overview of each product
- Our "Create Specification" tool provides a custom specification in seconds

For contractors and fitters

- Some of the shortest lead times in the industry
- Support throughout the design and build of your project
- Detailed fitting and installation instructions

For the end user

- Excellent quality products (even budget ranges have robust fittings)
- A cubicle range to suit any environment or budget
- Committed to using responsibly sourced wood-based materials

Cubicle Centre is an award winning, family run business that specialises in the manufacture of washroom panel products. We won "SME of the Year" and "Best of the Best" in the Constructing Excellence Awards.

We can also supply sanitary ware, brassware and washroom accessories to complete your project. These products are available to buy online at Plumbware.co.uk (a Cubicle Centre brand).

Not sure which cubicle system is right for you?

** Colour option are subject to change due to suppliers.

Material Guide

Compact Grade Laminate (CGL)

Constructed from multiple layers of high quality kraft paper, reinforced by thermosetting resins under high pressure and temperature. This produces tough, high density, totally waterproof and hygienic panels that have a high level of strength.

All visible CGL panel edges are machined to a smooth round profile.

CGL is the ideal choice for washroom and changing room areas that have very high traffic.

Melamine Faced Chipboard (MFC)

Melamine Faced Chipboard incorporates a decorative melamine surface bonded to both sides of high density chipboard under high pressure and temperature.

All visible MFC panels have impact resistant, PVC edging applied.

MFC is a cost effective, hygienic and lightweight solution for all non-wet toilet areas.

High Pressure Laminate (HPL)

Constructed from layers of high quality kraft paper, reinforced by thermosetting resins under high pressure and temperature with one decorative surface. The result is a hygienic 0.8mm thick flexible sheet material.

HPL is bonded onto a high density coreboard to produce a strong finished panel. Panels can be post-formed to create a seamless, curved edge detail.

HPL is suitable for use in areas of high traffic and reasonably demanding conditions.

Compact Density Fibreboard (CDF)

CDF is a robust high density, black coloured wood fibreboard. Stability, scratch resistance and splash water resistance are among the characteristics of this sophisticated natural wood composite.

All visible CDF panel edges are machined to a smooth round profile.

CDF is an excellent choice when additional durability is required.

Pendle

Specification: [Page 40](#)

A box packed toilet cubicle system suited for all dry areas. Comprising of Box A (Door Pack) and Box B (Partition Pack), containing all necessary panels and fittings.

Usually dispatched within 48 hours of order

Box packed for ease of transport and handling

Adjustable on-site

Durable panels with tough PVC edging

Smoke Blue, Grey, Plain Grey, White or Woodgrain Options

Indicator Face

Cubicle Leg

Cubicle Latch

Full-Height Hinge

Pendle Junior

Specification: Page 41

A box packed toilet cubicle system suited for Junior school washrooms. Comprising of Box A (Door Pack) and Box B (Partition Pack), containing all necessary panels and fittings.

Usually dispatched within 48 hours of order

Box packed for ease of transport and handling

Adjustable on-site

Durable panels with tough PVC edging

Two door colour options - Blueberry or Dragon Fruit (above)

Indicator Face

Cubicle Leg

Curved Door

Full-Height Hinge

Pennine cubicles offer a level of durability not normally associated with a budget range.

Brackets and hinges are through-bolt types that provide a strong and secure cubicle fixing.

Pennine

Specification: Page 42

Suited for use in dry areas where function and price are the most important factors. Pennine offers all the key functional qualities required for a practical washroom environment.

Perfect for a EYFS or day nursery setting. All the child friendly design of Sydney, but with durable and water resistant panels. Slamming doors and splashed water are no trouble for these tough cubicles.

Made to measure

Compact Grade Laminate (CGL)

Overall height of 1500mm with 100mm floor clearance

Anti-trap hinges with magnetic door catch

Wide colour choice

Child-Friendly Handle

Floor Supports

Unique Curved Design

Hidden Safety Hinge

Vanity Units

Vanity Units are made to measure and available as either Inset (550mm deep) or Semi-Recessed (350mm deep) options. Overall vanity height is 850mm (standard) - this can be altered to suit your individual requirements.

Vanity tops are 20mm thick with a High Pressure Laminate (HPL) finish as standard. Under panels are constructed from high performance MFC as standard or CGL panels with a CGL vanity kit.

The new, unique design removes the need for a timber frame, saving you both time and money.

PLEASE NOTE:

Vanity Units are supplied in kit form for self-assembly.

Solid surface Vanity Units are available on request.

New

Banian Noirci top with Banian Bianchi under panels

CGL Vanity Units

The same specification as the standard vanity unit, but made from water-resistant and durable Compact Grade Laminate (CGL) panels. Also available in splash-resistant Compact Density Fibreboard (CDF) to match the cubicles. The ideal option for high usage areas.

Made to measure

CDF or CGL panel material

Choice of inset or semi-recessed designs

Unique design removes need for timber frame

Colour choice to match your cubicles

Semi-Recessed Vanity Unit

Curved Aluminium Front Edge

Matching Colour Choice

Made-to-Measure

Wall Panel Systems

Full-height wall panel systems can be supplied to match your cubicle colour configuration and material.

Panels are Melamine Faced Chipboard (MFC) as standard, with a protective PVC edging.

For areas prone to a wet environment, such as changing rooms, Cubicle Centre can supply CGL wall panel systems.

Panels come flat-packed, complete with all flash-gap material and suspension fitting components.

Overall system height varies according to your ceiling height.

See page 54 for specification details.

Timber frame supplied by other

Pendle Panels

Simple to specify, delivered to you quickly and easily adjusted and installed on-site.

The Pendle washroom panel system has been developed for both urinal and WC panel configurations.

With an overall height to match Pendle cubicles (1950mm), this box packed panel system can be cut-to-size on site to fit various cubicle widths up to a max. of 1200mm.

Pendle Junior panels are available in Blueberry and Dragon Fruit.

Pendle products can be supplied as FSC certified on request.

Healthcare IPS Configurations

Panel System
Panels Compact Grade Laminate
Depth 13mm

Boxed Unit
Panels High Pressure Laminate
Depth 200mm standard + front panels

Cistern-Box Kits

Cistern-Box or 'half-height' kits are available as an alternative to the full height option.

Available in MFC, HPL, CDF and CGL, Cistern-Box Kits measure 1200mm (high) x 300mm (deep) as standard, and fit your internal cubicle width(s).

This product can also be manufactured to suit your individual site requirements, simply provide us with your measurements.

Timber frame supplied by others.

Lockers & Benches

For a complete changing room area, Cubicle Centre can now supply made to measure bench seating and locker systems.

Lockers are available in a variety of configurations to suit your requirements. There are a wide choice of colour options for the locker doors.

Various types of bench seating can be made to order.

Contact us on 01924 457600 to discuss your requirements and to obtain a quote.

New

Black Sparkle Trevi Panel in a corner configuration

Trevi Panel

Trevi Panel offers a cost effective alternative to tiling a washroom. The panels are 11mm Moisture Resistant MDF which, when sealed, is perfect for wet locations.

Quick to install, more hygienic and very little maintenance required once fitted. The panels are adjustable on site to suit your requirements. Available in our range of standard and premium colours (www.washroomcubicles.co.uk/shower-panels/).

Orders are delivered with the following:

- Shower Panels measuring 1200mm x 2400mm
- Satin Silver Channels
- White Shower Seal Channel
- Adhesive and Silicone

Moisture Resistant MDF

Moisture Resistant (MR) Medium-density fibreboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibres and combining it with wax and a resin binder, and forming panels by applying high temperature and pressure.

Once the edges are properly sealed the panels are ideal for wet room locations.

New

Banian Noirci vanity top with Morello Cherry Splashback

Acrylic Splashbacks

Acrylic splashbacks are beautiful and tough. The acrylic glass is 4mm thick with a back painted surface available in a range of colours. This gives a fantastic colour intensity and reflection through its surface, just like coloured glass.

Our acrylic panels are an affordable alternative to glass and ceramic tiles. The highly durable panels are 25 times more impact resistant than traditional glass. So it will not shatter.

It also has a high heat resistance of up to 100°C. The material is also 100% waterproof so ideal for the washroom environment.

Acrylic Glass Summary

- Cost-effective glass alternative
- 100% waterproof
- Panels can be cut on site
- Scuffs can be polished away
- High heat resistance
- Will not shatter
- Less energy to produce than glass
- Material can be recycled
- Fantastic colour intensity
- Looks like traditional coloured glass

Acrylic Glass Colour Options

Toilet Cubicle Sizes (Universal Access Guidelines)

Enlarged WC Cubicles:

Where there are 4 or more cubicles in a washroom, one of these must be an enlarged cubicle.

Enlarged cubicles must be a minimum width of 1200mm and include an outward opening door.

A horizontal and vertical grab rail set is required around the WC.

Standard Toilet Cubicles:

All standard cubicles must now have a minimum of 450mm diameter manoeuvring space within the cubicle.

Indicator-bolts must be capable of being operated with a closed fist (single action) - and doors must allow for emergency access should the user collapse and become trapped in the cubicle.

Ambulant Disabled Cubicles:

Every same-sex washroom must have at least one wc cubicle that is suitable for the ambulant disabled.

If there is only one cubicle in the washroom this must be suitable for an ambulant disabled person.

The ambulant disabled cubicle must include an outward opening door.

Wheelchair Accessible Cubicle Dimensions

Wheelchair Accessible Cubicles:

The wheelchair accessible layout has been modified to accommodate an overall toilet cubicle length of 2220mm (previously 2000mm).

The door opening needs to be 900mm with a 950mm (wide) outward opening door.

Doc-M Packs are available to purchase online from:

Frequently Asked Questions

Do you offer a fit-out service?

Cubicle Centre manufacture and supply only.

Our washroom systems are designed to be easily assembled by competent tradespersons.

Can I buy replacement / spare parts?

Maintenance Packs (including spare fittings) can be supplied with your initial order on request, at extra cost.

Replacement parts will only be sold for Cubicle Centre washroom systems.

What is the recommended minimum size for a standard toilet cubicle?

750mm (wide) x 1500mm (deep)

See page 38 for Universal Access Guidelines.

What is the 'cubicle configuration'?

We need to know which of the following four situations your cubicles will be fitted in:

Enclosed
(between walls)

Corner

In-Line

In-Line with Return

What is your budget range of toilet cubicles?

Pennine (page 09) offers a practical washroom solution for those with a low budget.

See page 04 for Cubicle Product Guide.

I need some cubicles urgently...

The *Pendle* and *Pendle Junior* cubicle systems are usually dispatched within 48 hours of order. See page 06 and 07 for further details. The complete *Pendle* range can be ordered online at Plumbware.co.uk

How do I get a quote?

Due to the majority of products being made to measure, pricing is on a job-to-job basis.

Email (sales@washroomcubicles.co.uk) your washroom requirements to us along with a drawing or sketch and we'll do the rest.

Alternatively, visit www.washroomcubicles.co.uk/quote to fill in an online form. Our sales team are on hand to answer any questions you may have on 01924 457600.

Frequently Asked Questions

How quickly can I have my order?

Lead times can vary from 5 to 15 working days depending on your specific requirements.

PLEASE NOTE: Lead times may increase during busier periods of the year (i.e. school holidays)

Those looking to refurbish washrooms during school holidays are advised to place their order several weeks beforehand.

Which product is best suited for use in shower / changing areas?

The *Cairngorm*, *Cotswold* and *Privacy* cubicle systems are suited for use in shower / changing areas or in areas that are likely to be subject to a wet environment or vandalism.

What are the different types of panel material?

Our products have various types of panel materials suited to different environments. *Melamine Faced Chipboard (MFC)* is suited to standard washrooms, while *Compact Grade Laminate (CGL)* is waterproof and durable and perfect for heavy use washrooms. A full description of each material can be found on page 05 Material Guide.

Do you offer screen printed doors for children's cubicles?

Cubicle Centre offer an alternative range of exclusive vinyl designs which can be applied to your cubicle doors on request. See below for some of the designs available.

Happy Everything

Space Adventure

Colourful Chameleons

Ocean View

What should I clean the cubicles with?

For MFC products, remove general stains and marks with a proprietary non-abrasive bathroom or kitchen surface cleaning solution on a damp cloth. Do not use excessive amounts of water or solution.

CGL products are water proof and can therefore be cleaned more intensely with water and solution.

Avoid scrubbing or using anything with sharp edges in contact with the panels.

Can I open an account?

You may apply to open an account with us.

Account application forms are available from our website:

www.washroomcubicles.co.uk/downloads/DART-Credit_Application.pdf

Unless you currently hold an account with us, all made to measure bespoke items are subject to pro-forma prepayment.

We accept: BACS / CHAPS or

Frequently Asked Questions

How do I install my cubicles?

Cubicle Centre manufacture and supply only and recommend that fitting is done by a competent joinery team. Each range has it's own set of fitting instructions sent with the order. Our team can help with any other instructions via telephone.

How do I calculate the number of toilets and wash basins I should provide?

The British Standard 6465-1:2006 Sanitary Installations document has information, formulas and tables explaining how many toilets, urinals and basins should be provided. The calculations are different for each location. The document covers, schools, offices, shopping centres, entertainment venues, restaurants, pubs and swimming pools. A full break down can be found at:

www.washroomcubicles.co.uk/how-many-toilets-do-you-need/

Are there any regulations I need to consider when planning a washroom?

Different sectors have different washroom regulations. For example a school has different toilet layout regulations to an office. To save time and effort when planning your project we created PDF guides for different sectors. Schools, offices, leisure centres, stadiums and holiday parks are all covered.

To download your guide visit:

www.washroomcubicles.co.uk/washroom-guides/

Do you offer any help to architects or specifiers?

We have created a range of resources to help with the planning of a washroom project. 2D CAD drawings 3D BIM files, specification sheets and a customised specification tool are all available at:

www.washroomcubicles.co.uk/architects/

Do you offer any posters for children?

We created a range of fun illustrated posters that remind children to wash their hands, put rubbish in the bin and drink water. These can be downloaded for **free** from:

www.washroomcubicles.co.uk/posters/

The colours in this brochure are within the constraints of the printing process and are NOT to be used for matching purposes.

Disability Discrimination Act - Building Regulations:

The responsibility for washroom compliance with current building regulations lies with the project manager. However, on request, we can offer advice on this subject.

TIDY TEACH
CLASSROOM STORAGE UNITS

Durable, Unique & Safe Classroom Storage Units

Tidy Teach are a new type of classroom storage unit that are three things:

Durable, Unique and Safe.

Sturdier panels, better fixings and additional safety features create the perfect classroom unit. Constructed by our expert joiners and delivered built, so you know it is made to last.

We Take Safety Seriously

Classroom furniture needs to be as safe as possible for the children and teachers. Our units have been rigorously tested for risks. We created our own safety guard to stop fingers getting trapped. Our wheels are the chunkiest to ensure they don't break. Static units have legs so they can be levelled up on uneven classroom floors.

A choice of either grey or white units (in a protective easy clean laminate). Then choose a vibrant colour for your trays and doors. The various units are designed so they can be combined to create a wall configuration.

Guaranteed to brighten up the classroom.
