## Why Choose Pendle?

During a project things can go wrong.

Schedules change. Suppliers let you down.  
Orders get forgotten.

The team at Cubicle Centre developed the Pendle range of toilet cubicles so you don't have to worry.

### **Pendle cubicles are:**

- Easy to order
- Quickly dispatched
- Straight forward to fit and adjustable on-site
- Made of durable panels with tough PVC edging
- Available in five colour combinations

[View the Pendle Range Online](#)

## What is Pendle?

Pendle is a box packed cubicle system comprising of **Box A (Door Pack)** and **Box B (Partition Pack)**.

Every Cubicle Door requires one Box A and every Cubicle Partition requires one Box B.

The box packs allow for easy handling and transport and are usually dispatched within two working days (48 hours) of order - A vastly reduced lead time compared with made to measure cubicle products.

**Box A** - 1820 x 970 x 70mm (45Kgs)

**Box B** - 1820 x 970 x 70mm (65Kgs)

The Grey colour option with matching vanity unit.

## How Does Pendle Work?

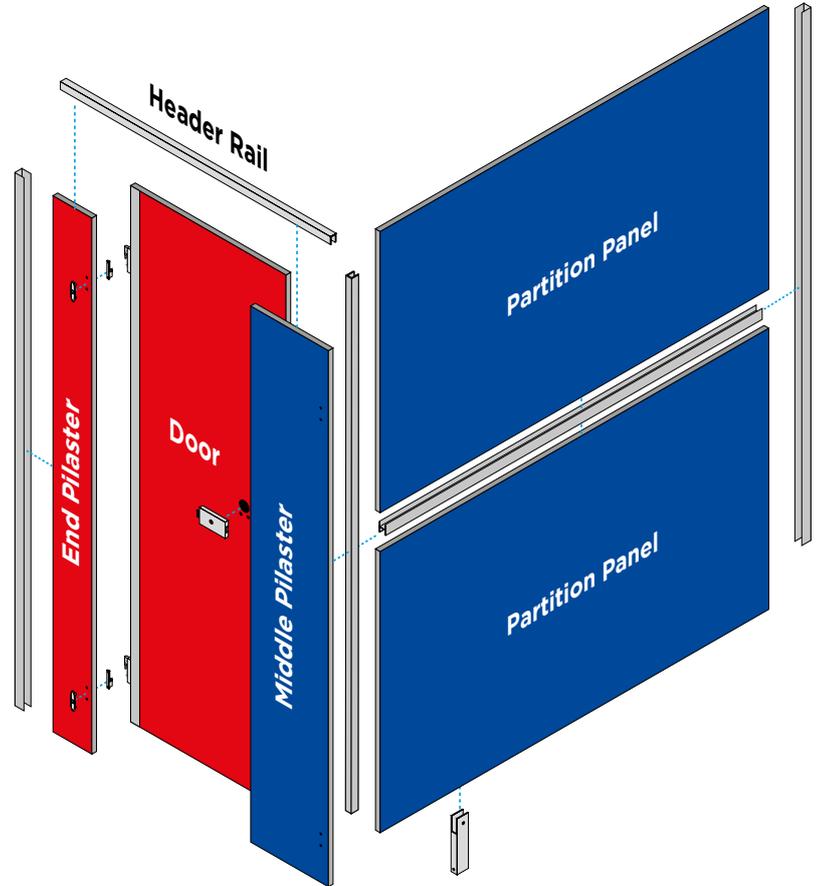

Panels are durable Melamine Faced Chipboard (MFC) with 2.0mm PVC protective edging. MFC is not suitable for use in shower areas.

Cubicle Centre is always looking to ensure the wood used to make it's products comes from the most sustainable sources available and now offer FSC® Certified Pendle cubicles on request.

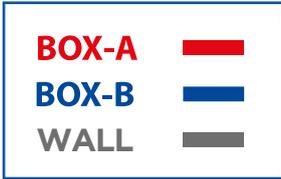

The mark of responsible forestry

The diagram shows how the cubicle is easily constructed on-site.

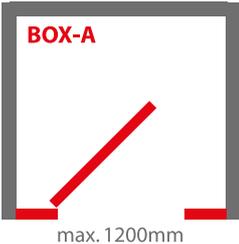

# Cubicle Configurations

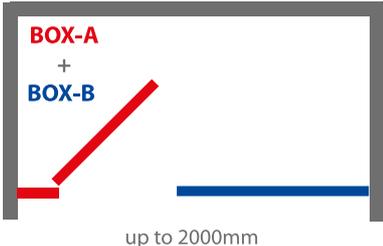

Pendle packs contain all the necessary panels and fittings to construct almost any configuration of cubicle commonly in use.

# BOX<sup>®</sup>A

## Cubicle Door Pack

This pack contains all the necessary panels and fittings to create an enclosed toilet cubicle with a max. width of 1200mm.

### Box A includes:

- Door (1800 x 950mm)
- End Pilasters (1800 x 150mm)
- Lock & Latch with Outward Opening Adaptor
- Channels, Head Rail and fittings

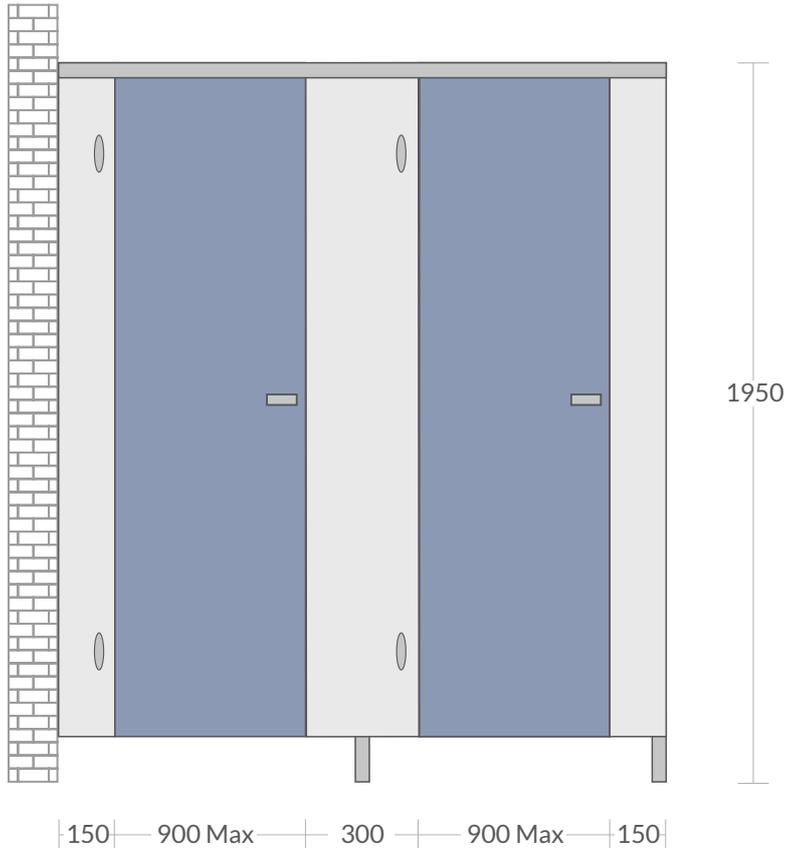

## Front Dimensions

The cubicle door supplied in Box A measures 950mm (wide) and is to be cut-to-size on site. This cut is then concealed by the full-height door hinge channel.

The Pendle Box A Pack also includes an **Outward Opening Adaptor** to complete a cubicle door fitted for outward opening use.

Pendle cubicle fittings are DDA (Disability Discrimination Act) Compliant. The cubicle latch is suitable for users with impaired manual dexterity (i.e. can be operated with a 'closed fist')

The Smoke Blue colour option is shown.

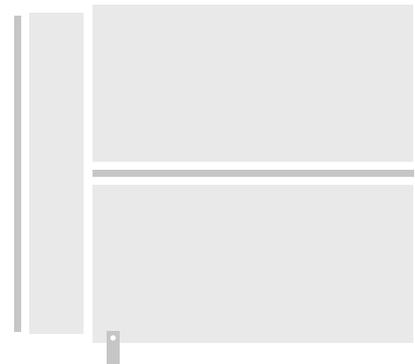

# BOX B

## Cubicle Partition Pack

This pack contains all the necessary panels and fittings to create a toilet cubicle partition with a max. depth of 1800mm.

### Box B includes:

- Partition supplied in two parts (1800 x 900mm)
- H Channel
- End Pilaster (1800 x 300mm)
- Leg
- Channels & Fittings

## Side Dimensions

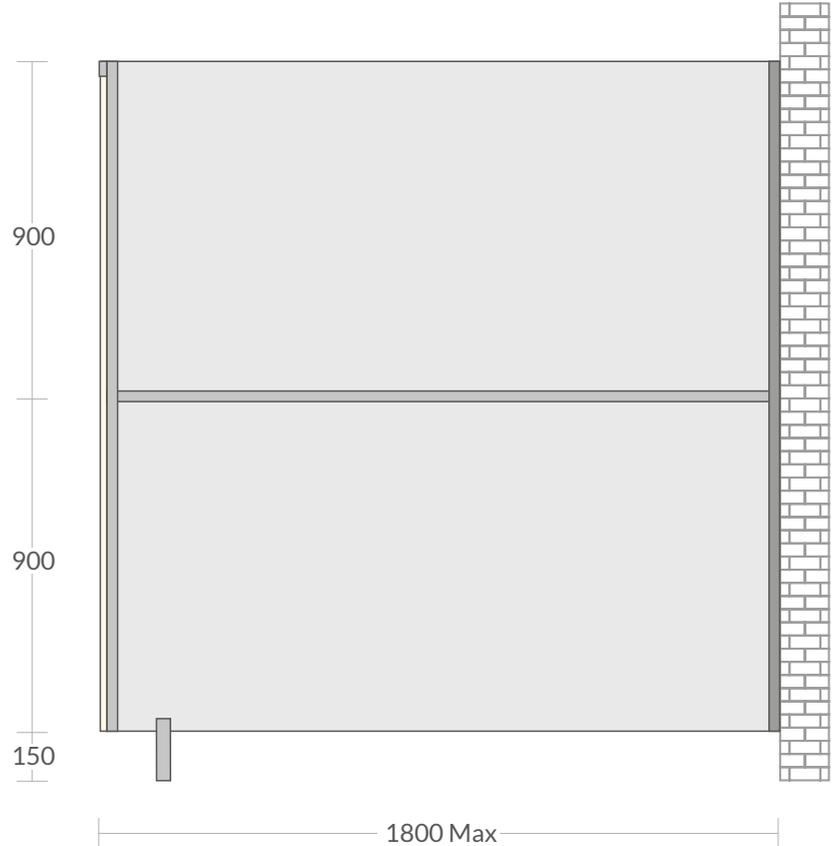

The partition in Box B measures 1800mm (wide) in two parts. The length can be cut-to-size on site. This cut is then concealed by the full-height wall channel.

Cubicle Legs (Partition Supports) are set-back and fixed to the partition, whilst providing a solid fixing to the floor.

When specifying the Pendle Cubicle System, remember that:

Every **DOOR** requires a **BOX A**  
Every **PARTITION** requires a **BOX B**

**Buy Pendle Partition Pack (Box B)**

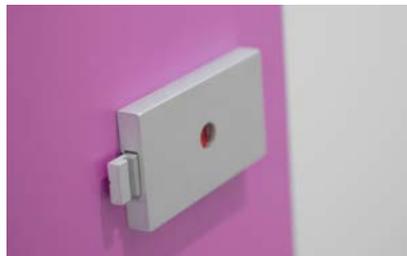

The Grey colour option is shown.

## Pendle Junior

Pendle Junior offers the same benefits as Pendle cubicles but are designed with junior schools in mind.

Suitable for boys and girls washrooms with a choice of two colours, Blueberry & Dragon Fruit. The doors have a reduced size (1350mm) and a unique curve.

## Vanity Unit Kit

Matching vanity unit kits are available to order.

Vanity units are made to measure and available as either Inset (550mm deep) or Semi-Recessed (350mm deep) options.

Overall vanity height is 850mm (standard) - this can be manufactured to suit your individual requirements.

**NOTE:** Timber frame supplied by other.  
Pendle panels are NOT suitable for shower areas.

The Pendle washroom panel system has been developed for both Urinal and WC panel configurations. With an overall height to match a Pendle Toilet Cubicle, this box packed panel system can be cut-to-size on site to fit various cubicle widths up to a max of 1200mm.

For a complete finish each panel pack is supplied with a 1200mm (w) x 300mm (d) lid.

# Made-to-Measure Toilet Cubicles & Washroom Systems

Sometimes the space available can be a challenge. Then the only solution is Made-to-Measure cubicles. Cubicle Centre can supply toilet or shower cubicles for any environment. Whatever your budget or requirements there is a cubicle system to meet your needs.
