Quality Policy

Cubicle Centre is a UK-based manufacturing company of toilet cubicles and associated products. We manufacture and supply only, direct from our factory in West Yorkshire.

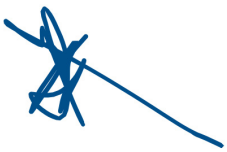
It is the policy of Cubicle Centre to provide its customers with a high quality service. The overall policy of the company is to provide the staff, organisation and resources to supply our customers with the products and services that satisfy their requirements in every respect.

Furthermore it is Cubicle Centre policy to continually improve our quality by monitoring, measuring and enhancing our Quality and Procedural System.

Implementation of the Quality Policy is the responsibility of every member of staff starting with the Managing Partner, who takes policy decisions which enable the correct action to be implemented throughout the organisation.

The Managing Partner also acts as the Director of Quality and as such is responsible for maintaining the implementation of the Quality Policy, along with the Quality Manager.

The Quality Policy has the full support of senior management and, together with Quality Assurance Procedures, ensures that activities are controlled in a manner compatible with achieving required service levels and obligations effectively. It is mandatory that all staff adhere to the procedures in order to achieve a consistent approach to Quality Assurance.



Andrew Thorpe
Managing Partner
