We are always looking to ensure the wood used to make our products comes from the most responsible sources available. Certain MFC colours can be supplied as FSC® Certified on request. Simply look out for the FSC 'ticktree' logo in this brochure.

The mark of  
responsible forestry

Wood sourced from  
responsibly managed forests

To learn more about the Forest Stewardship Council®, visit [www.fsc.org](http://www.fsc.org)

Some people think a cubicle is just a cubicle, but we take our business seriously.

The smallest rooms in the building can lead to the biggest frustrations. At Cubicle Centre we are working hard to make your life as easy as possible.

## Why Choose Cubicle Centre

---

### For architects and specifiers

- We provide a full library of 2D CAD and 3D BIM (Building Information Modelling) files for all our products
- Specification sheets provide a detailed overview of each product
- Our “Create Specification” tool provides a custom specification in seconds

### For contractors and fitters

- Some of the shortest lead times in the industry
- Support throughout the design and build of your project
- Detailed fitting and installation instructions

### For the end user

- Excellent quality products (even budget ranges have robust fittings)
- A cubicle range to suit any environment or budget
- Committed to using responsibly sourced wood-based materials

---

Cubicle Centre is an award winning, family run business that specialises in the manufacture of washroom panel products. We won “SME of the Year” and “Best of the Best” in the Constructing Excellence Awards.

We can also supply sanitary ware, brassware and washroom accessories to complete your project. These products are available to buy online at [Plumbware.co.uk](http://Plumbware.co.uk) (a Cubicle Centre brand).

Not sure which cubicle system is right for you?

## Material Guide

### Compact Grade Laminate (CGL)

Constructed from multiple layers of high quality kraft paper, reinforced by thermosetting resins under high pressure and temperature. This produces tough, high density, totally waterproof and hygienic panels that have a high level of strength.

All visible CGL panel edges are machined to a smooth round profile.

CGL is the ideal choice for washroom and changing room areas that have very high traffic.

### Melamine Faced Chipboard (MFC)

Melamine Faced Chipboard incorporates a decorative melamine surface bonded to both sides of high density chipboard under high pressure and temperature.

All visible MFC panels have impact resistant, PVC edging applied.

MFC is a cost effective, hygienic and lightweight solution for all non-wet toilet areas.

### High Pressure Laminate (HPL)

Constructed from layers of high quality kraft paper, reinforced by thermosetting resins under high pressure and temperature with one decorative surface. The result is a hygienic 0.8mm thick flexible sheet material.

HPL is bonded onto a high density coreboard to produce a strong finished panel. Panels can be post-formed to create a seamless, curved edge detail.

HPL is suitable for use in areas of high traffic and reasonably demanding conditions.

### Showerwall

All decors from the Marble, Quarry and Mineral collections are manufactured from a moisture resistant MDF core and finished with a high pressure laminate (HPL), creating 10.5mm thick panels.

These panels are available in 3 widths. 600mm, 900mm or 1200mm; and are 2440mm in height. You can choose from square cut panels or take advantage of the Proclick technology which achieves seamless joints without the need for joining trims.

# Pendle

A box packed toilet cubicle system suited for all dry areas. Comprising of Box A (Door Pack) and Box B (Partition Pack), containing all necessary panels and fittings.

Usually dispatched within 48 hours of receipt of order

Box packed for ease of transport and handling

Adjustable on-site

Durable panels with tough PVC edging

Smoke Blue, Stone Grey, Grey, Plain Grey, White or

Woodgrain Options

## Corian® Units

Corian vanity units offer an alternative to a traditional vanity. Its versatility means it can be used as a basin surface to mount your choice of basin, or as an all in one trough solution.

Corian is non porous and hygienic making it an ideal material for washrooms. Its smooth surface repels liquids making it easy to clean - bacteria and mould have nowhere to take root. The surfaces are renewable and inherently environmentally friendly. Stains and scratches can be removed without a trace, simply by rubbing with household cleaner.

Available in a wide range of colour finishes, Corian surfaces are jointed with colour-coordinated joint adhesive with inconspicuous seams resulting in a smooth surface enabling large designs made from a single element. Whether you want a single wash unit, or a multi-user unit, Corian offers a beautiful seamless solution.

## Wall Panel Systems

Full-height wall panel systems can be supplied to match your cubicle colour configuration and material.

For areas prone to a wet environment, such as changing rooms, Cubicle Centre can supply CGL wall panel systems.

Panels come flat-packed, complete with all flash-gap material and suspension fitting components.

Overall system height varies according to your ceiling height.

See page 60 for specification details.

Timber frame supplied by other

## Pendle Panels

Simple to specify, delivered to you quickly and easily adjusted and installed on-site.

The Pendle washroom panel system has been developed for both urinal and WC panel configurations.

With an overall height to match Pendle cubicles (1950mm), this box packed panel system can be cut-to-size on site to fit various cubicle widths up to a max. of 1200mm.

Pendle Junior panels are available in Blueberry and Dragon Fruit.

Pendle products can be supplied as FSC certified on request.

Wall/Floor mount

# Lockers

Lockers have been designed to complement any washroom and are robust and hardwearing. Lockers feature Solid Grade Laminate doors and shelves available in a wide variety of colours each with complementary framework in aluminium. Ideal for any washroom or cubicle system in both wet and dry environments.

Camlock and hasp and staple are standard locks. Coin return/retain, combination and digital locks can be supplied on request.

Contact us on 01924 457600 to discuss your requirements and to obtain a quote.

## Healthcare IPS HPL /CGL

### Standard Pre Assembled Boxed Unit

Cubicle Centre's boxed Healthcare panel systems are ideal for refurbishment or additional works projects because they provide the least disruption due to their fast installation.

These units project out from the finished wall surface to provide a self contained duct – the plumbing is concealed behind the whole unit with easy to access doors which can be hinged or lockable. Boxed kits do not require any alterations to existing structures provided they are fitted to existing structural or partition walls. Units are available as full height or shelf height assemblies.

Specification: Page 39

# Healthcare IPS HPL/CGL

## Standard Pre Assembled Recessed Unit (Plywood Frame)

In a new build project where a service duct can be constructed within the partition wall, our recessed frame units will fit directly into the drywall apertures creating a flush panel solution. This offers a space-saving and aesthetically pleasing finish.

With some additional work, these panels can also be cut into existing partition walls by a competent builder/joiner. These units are typically full height with panels fixed with keku clips as standard and/or hinges and locks supplied as extra.

Specification: Page 39

## Hinges and Locks

Integrated Plumbing Systems are available with additional options for hinged and lockable panels.

For 13mm CGL panels we offer a side and top opening hinge from Vela, or the Grass Tiomos concealed cup hinge from Häfele, and a Cylinder cam lock, also from Häfele.

18mm HPL panels are specified with either Vela side and top opening hinges or Häfele concealed cup hinges. For HPL panels, Häfele rim locks are specified.

Grass Tiomos Hinge (13mm)

Häfele Concealed Cup Hinge (18mm)

Häfele Cylinder Cam Lock (13mm)

Häfele Rim Lock (18mm)

A complete IPS panel system fully compliant with NHS Estate Guidelines and HBN 00-10 Parts A, B and C specifications.

## Standard Pre Assembled Boxed Unit

**Panels** High Pressure Laminate  
(with post-formed edges)  
Compact Grade Laminate

**Depth** 200mm standard + 18mm (HPL)  
/13mm (CGL) front panels

**Height:** Bottom panel 430mm  
Middle panel 670mm  
Top panel variable height to suit  
(Aluminium extrusion fitted to all  
vertical edges of box structure)

## Standard Pre Assembled Recessed Unit with Plywood Frame

**Panels** High Pressure Laminate  
(with post-formed edges)  
Compact Grade Laminate

**Depth** 18mm (HPL) / 13mm (CGL)

**Height:** Bottom panel 430mm  
Middle panel 670mm  
Top panel variable height to suit

Panels supplied with keku clips or hinges and locks as required. Panel heights manufactured to customer specification.

## Moisture Resistant MDF

Moisture Resistant (MR) Medium-density fibreboard (MDF) is an engineered wood product made by breaking down hardwood or softwood residuals into wood fibres and combining it with wax and a resin binder, and forming panels by applying high temperature and pressure.

Once the edges are properly sealed the panels are ideal for wet room locations.

## Showerwall end trims

The system comes with two key components which ensure a watertight seal for Showerwall products; available in a range of colours to suit every decor. Easy to install and maintain.

Five trims are available dependant on where you would like to fit the panels. Note: all trims measure 2450mm in length and should be sealed using Showerwall sealant.

Banian Noirci vanity top with Morello Cherry Splashback

# Acrylic Splashbacks

Acrylic splashbacks are beautiful and tough. The acrylic glass is 4mm thick with a back painted surface available in a range of colours. This gives a fantastic colour intensity and reflection through its surface, just like coloured glass.

Our acrylic panels are an affordable alternative to glass and ceramic tiles. The highly durable panels are 25 times more impact resistant than traditional glass. So it will not shatter.

It also has a high heat resistance of up to 100°C. The material is also 100% waterproof, so ideal for the washroom environment.

## Acrylic Glass Summary

- Cost-effective glass alternative
- 100% waterproof
- Panels can be cut on site
- Scuffs can be polished away
- High heat resistance
- Will not shatter
- Less energy to produce than glass
- Material can be recycled
- Fantastic colour intensity
- Looks like traditional coloured glass

# Toilet Cubicle Sizes (Universal Access Guidelines)

## Enlarged WC Cubicles:

Where there are 4 or more cubicles in a washroom, one of these must be an enlarged cubicle.

Enlarged cubicles must be a minimum width of 1200mm and include an outward opening door.

A horizontal and vertical grab rail set is required around the WC.

## Standard Toilet Cubicles:

All standard cubicles must now have a minimum of 450mm diameter manoeuvring space within the cubicle.

Indicator-bolts must be capable of being operated with a closed fist (single action) - and doors must allow for emergency access should the user collapse and become trapped in the cubicle.

## Ambulant Disabled Cubicles:

Every same-sex washroom must have at least one wc cubicle that is suitable for the ambulant disabled.

If there is only one cubicle in the washroom this must be suitable for an ambulant disabled person.

The ambulant disabled cubicle must include an outward opening door.

## Wheelchair Accessible Cubicle Dimensions

### Wheelchair Accessible Cubicles:

The wheelchair accessible layout has been modified to accommodate an overall toilet cubicle length of 2220mm (previously 2000mm).

The door opening needs to be 900mm with a 950mm (wide) outward opening door.

Doc-M Packs are available to purchase online from:

[plumbware.co.uk](http://plumbware.co.uk)

## How to Order

Pendle cubicles can be ordered quickly and easily online.  
To place your order visit:  
[www.plumbware.co.uk](http://www.plumbware.co.uk)

**Product reference** Pendle Cubicle System  
**Material** Melamine Faced Chipboard

**Overall cubicle height**  
1950mm including a 150mm floor clearance

## Partitions

Partition depth 1800mm (maximum)  
Partition height 1800mm

## Doors

Door height 1350mm (1500mm from floor)

## Fittings

SAA: cubicle legs, heavy-duty hinges and cubicle latches. PVC header rail and channels.

## Pendle System

Adjustments can be made to cubicles to suit site requirements by reducing doors and partitions on-site. The cut edges are protected by full-height door and wall channels.

Blueberry

Dragon Fruit

## Frequently Asked Questions

### Do you offer a fit-out service?

Cubicle Centre manufacture and supply only.

Our washroom systems are designed to be easily assembled by competent tradespersons.

### Can I buy replacement / spare parts?

Maintenance Packs (including spare fittings) can be supplied with your initial order on request, at extra cost.

Replacement parts will only be sold for Cubicle Centre washroom systems.

### What is the recommended minimum size for a standard toilet cubicle?

750mm (wide) x 1500mm (deep)

See page 44 for Universal Access Guidelines.

### What is the 'cubicle configuration'?

We need to know which of the following five situations your cubicles will be fitted in:

Enclosed  
(between walls)

Corner

In-line

In-line with return

Standalone

### What is your budget range of toilet cubicles?

*Pennine* (page 09) offers a practical washroom solution for those with a low budget.

See page 04 for Cubicle Product Guide.

### I need some cubicles urgently...

The *Pendle* and *Pendle Junior* cubicle systems are usually dispatched within 48 hours of order. See page 06 and 07 for further details.

The complete *Pendle* range can be ordered online at [Plumbware.co.uk](http://Plumbware.co.uk)

### How do I get a quote?

Due to the majority of products being made to measure, pricing is on a job-to-job basis.

Email ([sales@washroomcubicles.co.uk](mailto:sales@washroomcubicles.co.uk)) your washroom requirements to us along with a drawing or sketch and we'll do the rest.

Alternatively, visit [www.washroomcubicles.co.uk/quote](http://www.washroomcubicles.co.uk/quote) to fill in an online form. Our sales team are on hand to answer any questions you may have on 01924 457600.

## Frequently Asked Questions

### How quickly can I have my order?

Lead times can vary from 5 to 15 working days depending on your specific requirements.

**PLEASE NOTE:** Lead times may increase during busier periods of the year (i.e. school holidays)

Those looking to refurbish washrooms during school holidays are advised to place their order several weeks beforehand.

### Which product is best suited for use in shower / changing areas?

The *Cairngorm*, *Cotswold* and *Privacy* cubicle systems are suited for use in shower / changing areas or in areas that are likely to be subject to a wet environment or vandalism.

### What are the different types of panel material?

Our products have various types of panel materials suited to different environments. *Melamine Faced Chipboard* (MFC) is suited to standard washrooms, while *Compact Grade Laminate* (CGL) is waterproof and durable and perfect for heavy use washrooms. A full description of each material can be found on page 05 Material Guide.

### Do you offer screen printed doors for children's cubicles?

Cubicle Centre offer an alternative range of exclusive vinyl designs which can be applied to your cubicle doors on request. See below for some of the designs available.

Happy Everything

Space Adventure

Colourful Chameleons

Ocean View

### What should I clean the cubicles with?

For MFC products, remove general stains and marks with a proprietary non-abrasive bathroom or kitchen surface cleaning solution on a damp cloth. Do not use excessive amounts of water or solution.

CGL products are water proof and can therefore be cleaned more intensely with water and solution.

Avoid scrubbing or using anything with sharp edges in contact with the panels.

### Can I open an account?

You may apply to open an account with us.

Account application forms are available from our website:

<https://www.washroomcubicles.co.uk/wp-content/uploads/2019/07/Credit-Application.pdf>

Unless you currently hold an account with us, all made to measure bespoke items are subject to pro-forma prepayment.

We accept: BACS / CHAPS or

## Frequently Asked Questions

### How do I install my cubicles?

Cubicle Centre manufacture and supply only and recommend that fitting is done by a competent joinery team. Each range has its own set of fitting instructions sent with the order. Our team can help with any other instructions via telephone.

### How do I calculate the number of toilets and wash basins I should provide?

The British Standard 6465-1:2006 Sanitary Installations document has information, formulas and tables explaining how many toilets, urinals and basins should be provided. The calculations are different for each location. The document covers, schools, offices, shopping centres, entertainment venues, restaurants, pubs and swimming pools. A full break down can be found at:

[www.washroomcubicles.co.uk/how-many-toilets-do-you-need/](http://www.washroomcubicles.co.uk/how-many-toilets-do-you-need/)

### Are there any regulations I need to consider when planning a washroom?

Different sectors have different washroom regulations. For example a school has different toilet layout regulations to an office. To save time and effort when planning your project we created PDF guides for different sectors. Schools, offices, leisure centres, stadiums and holiday parks are all covered.

To download your guide visit:

[www.washroomcubicles.co.uk/washroom-guides/](http://www.washroomcubicles.co.uk/washroom-guides/)

### Do you offer any help to architects or specifiers?

We have created a range of resources to help with the planning of a washroom project. 2D CAD drawings 3D BIM files, specification sheets and a customised specification tool are all available at:

[www.washroomcubicles.co.uk/architects/](http://www.washroomcubicles.co.uk/architects/)

### Do you offer any posters for children?

We created a range of fun illustrated posters that remind children to wash their hands, put rubbish in the bin and drink water. These can be downloaded for **free** from:

[www.washroomcubicles.co.uk/posters/](http://www.washroomcubicles.co.uk/posters/)

#### Disclaimer

© 2022 Cubicle Centre

Whilst every care has been taken to ensure the information included in this brochure was correct at the time of printing, we reserve the right to change specifications at any time without prior notice. Where specification is critical, please contact us to ensure you have the latest available information. The colours in this brochure are within the constraints of the printing process and are NOT to be used for matching purposes.

#### Disability Discrimination Act - Building Regulations:

The responsibility for washroom compliance with current building regulations lies with the project manager. However, on request, we can offer advice on this subject.
